Fall Dogs Dan Rosenberg 2013 In this tale of Alaska, two young men come to Prince of Wales Island: one, a whaler who in 1849 was shipwrecked on the island's southern rocky shore, and one who arrived by ferry in the summer of 1975 to search for his place in the grand scheme of things. Their two lives were forever changed by the adventure awaiting them. True, they were from different times but their stories were played on the same incredible stage against a backdrop rich in mystical folklore and native history. And whether by fate or chance, their lives became tied together. In 1973 on the central Oregon coast, newlywed and fresh out of graduate school, DANIEL ROSENBERG with his wife Susan began a 24 year career raising Pacific salmon. After Oregon they lived in southeast Alaska for twenty seven years. For the first twenty years there, Daniel first worked as a salmon hatchery manager for the Metlakatla Indian Community and then the Alaska Department of Fish and Game until his retirement in 1996. During that time he was also a consultant for the international non-governmental organization VOCA (Volunteer in Overseas Cooperative Assistance) in Russia and Egypt. And for a brief period of time after retiring from the Alaska Department of Fish and Game, Daniel worked as a production supervisor for the Alaska Aquaculture Foundation. In 2003 Daniel and Susan moved to a small town in west Texas where at the time of this writing they own and operate a restaurant (The Pony Espresso) and a small vineyard (Aspermont Vineyards). They are quite content with their new life and the subtle beauty of the west Texas landscape.

Deception on All Accounts Sara Sue Hoklotubbe 2013-11-01 Is murder always a simple transaction? Don't bank on it. Sadie Walela's life is about to be turned upside down. One morning Sadie unlocks the door at the Mercury Savings Bank and confronts a robber who's been lying in wait for her and her fellow employees. He flees after stealing money and killing her coworker. When a whirlwind of events leaves Sadie herself under suspicion, she sets out to clear her name. This banker turned sleuth is suddenly plunged into an unfamiliar world in which people are not always as they appear—not her employer, not the homeless man she's befriended, not the police officer who takes an interest in the case, not the man she falls in love with. And, as she's beginning to imagine, not even herself. Sadie is a blue-eyed Cherokee living in northeastern Oklahoma, a half-blood who finds she sometimes has to adapt to get by in the white man's world, much as her father's ancestors did. In this story of robbery, murder, love, and intrigue, she faces adversity at each bend in the road, but in the tradition of her people she adapts and moves forward—even if it means having to re-think her relationships and expectations. Set against the backdrop of small-town Oklahoma and its Native culture, Deception on All Accounts draws readers into the real lives of contemporary American Indians as it shines a light on violence, corporate corruption, and prejudice in modern America. As Sadie Walela comes to terms with murder, romance, and her hopes for a career, she finds deception on all accounts. Lemon-Aid Used Cars and Trucks 2012-2013 Phil Edmonston 2012-05-19 Lemon-Aid guides steer the confused and anxious buyer through the economic meltdown unlike any other car-and-truck books on the market. U.S. automakers are suddenly awash in profits, and South Koreans and Europeans have gained market shares, while Honda, Nissan, and Toyota have curtailed production following the 2011 tsunami in Japan. The all-new Lemon-Aid Used Cars and Trucks 2012-2013 has the answers, including: More vehicles rated, with some

redesigned models that don't perform as well as previous iterations downrated. More roof crash-worthiness ratings along with an expanded cross-border shopping guide. A revised summary of safety- and performance-related defects that are likely to affect rated models. More helpful websites listed in the appendix as well as an updated list of the best and worst "beaters" on the market. Dealing With The Devil's Deal L. Hurley Ankeny 2013-06 Cocaine production, demand and sales has become an increasing problem in the Western Hemisphere. Motivation to purchase this narcotic by dealers, despite its high prices, and their capability to get the processed product to eager end buyers, has caused a high volume of illegal trafficking. Mexico, in particular, has been deluged by a severe intensive drug war. Because of the many deaths resulting from this conflict, that county now maintains the unenviable position as the number one nation in our hemisphere attempting to cope with severe cocaine problems. The nation of Colombia experienced this highly undesirable situation back in tee 19905. Pablo Escobar, that country's drug king, became 50 powerful, that at times he virtually ruled the nation. But this power eventually became his undoing. Right-wing opponents from the Las Pepes death squads killed him in 1993. Although, Colombia became more stable after that occurrence, a left wing organization emerged to take on the right's counter activities. They are known as the Farqs, They are still able to maintain a hold on the power involved with cocaine. Concerning DEALING WITH THE DEVIL, Jack Broderick, the CIA station Chief in Peru, earns his keep by impeding the drug influences mentioned above. He does an amazing job by enlisting a hard boiled agent, Brian Koltai, from the U.S. Together, they prevent another costly war from occurring in the Andes like the one that had taken place twenty years earlier.

A lone, desperate pilot arrives in the blistering heat of the south Texas border city of McAllen. Searching for a flying job, he finds old aircraft flying south in the dead of night, their cabins overloaded with electronic contraband. They were headed for clandestine airstrips deep into Mexico's interior. With pockets full of hope and not much else, the pilot's fragile lives hung literally on both engines running. Read about the incredible adventures, the hair raising escapes, the long prison terms and death that await them south of the border. Read about the inherent danger in flying the dark, sinister Sierras and landing at blacked out, improvised airstrips. Dealing with corrupt and ruthless Mexican authorities, pilots found their well-being hung by a tenuous thread. Everyone, north and south, had a price. For more than a few, that price was death. "While not exactly a fountain of information, Chuck did manage to leave me with an uplifting reflection as I ambled away from his esteemed presence. I think he had sensed my apprehension. Offhandedly, he said that no one had been killed since early June. My pace slowed a bit as that uncertain benediction hit home like a June bug smackin' a Harley driver's eyeball. Whap! I took a quick look at my Seiko watch, a long-lived holdover from another asylum of anxiety called Vietnam. The day/date showed Jun/21. Maybe he meant last June? I thought. I turned to ask but changed my mind. With a somewhat dampened spirit, I returned to my metal abode for more contemplation. Keeping my options open grew more appealing for now."
