Computers Larry E. Long 2002 This tenth edition is a technology update intended to bring Computers abreast with a rampaging technology. About six Internet years pass in one real-time year, the elapsed time since the last edition. The tenth edition retains the same familiar look and feel as the ninth edition. However, it contains hundreds of changes needed to ensure that Long continues to be the most current introductory IT book available. Includes over 150 new or updated images that reflect the latest releases and innovations in software. Numerous new photos show new hardware and applications. Throughout the book, capacities and speeds for communications hardware, disks, RAM, processors, printers, and so on have been adjusted to reflect the state of the art. Provides essential information on hardware, Windows, and networking procedures, and on word processing, e-mail, and browser software. Expanded presentation of ethics; additional coverage of the Internet; and a new IT Illustrated section on careers gives readers an in-depth look at career opportunities for IT specialists and for IT-competent people. For anyone who wants to advance their personal computing experience and skills, and individuals considering careers as IT specialists.

Global Television Formats Sharon Shahaf 2013-06-17 "Global Television Formats" aims to revise the place of the global in television studies. The essays gathered here explore the diversity of global programming and approaches, and ask how to theorize contemporary global formats and thus re-shape our understanding of television as at once a shared global and specific local text, an economic system, a socio-political institution, and a popular practice. The contributors explore a wide array of television programming from the Middle East, Western and Eastern Europe, South Asia, North America, Latin America, and Brazil, and represent a br.
