Assassin's Prey Ella Sheridan 2019-06-09 "Assassin Levi Agozi has lived a brutal life, but at his core is a man of strength and honor—my favorite kind of hero. I have added a new autubuy author to my list and her name is Ella Sheridan!" —Lara Adrian, New York Times bestselling author I killed my first man at the age of twelve. I've been killing ever since. I thought it was all I lived for...until Abby. Until the woman I'd kidnapped became the woman I couldn't walk away from. She owns a piece of me I wouldn't take back, but the rest? The only way to protect her is to hold back the parts inside me that are too ugly to ever reveal. I'll keep her safe, even from me. And it works. We have the nights, and I hunt my way through the days. Alone. Until an attack reveals a threat we didn't see coming. One that could take away the dream I didn't realize I had. Everything. With her. I'm on the hunt of my life. My prey might run, but in this fight—for her, for us—they don't stand a chance. \*

The Feeling of Life Itself Christof Koch 2020-09-08 An argument that consciousness, more widespread than previously assumed, is the feeling of being alive, not a type of computation or a clever hack. In *The Feeling of Life Itself*, Christof Koch offers a straightforward definition of consciousness as any subjective experience, from the most mundane to the most exalted—the feeling of being alive. Psychologists study which cognitive operations underpin a given conscious perception. Neuroscientists track the neural correlates of consciousness in the brain, the organ of the mind. But why the brain and not, say, the liver? How can the brain, three pounds of highly excitable matter, a piece of furniture in the universe, subject to the same laws of physics as any other piece, give rise to subjective experience? Koch argues that what is needed to answer these questions is a quantitative theory that starts with experience and proceeds to the brain. In *The Feeling of Life Itself*, Koch outlines such a theory, based on integrated information. Koch describes how the theory explains many facts about the neurology of consciousness and how it has been used to build a clinically useful consciousness meter. The theory predicts that many, and perhaps all, animals experience the sights and sounds of life; consciousness is much more widespread than conventionally assumed. Contrary to received wisdom, however, Koch argues that programmable computers will not have consciousness. Even a perfect software model of the brain is not conscious. Its simulation is fake consciousness. Consciousness is not a special type of computation—it is not a clever hack. Consciousness is about being.

Apostle Tom Bissell 2016-04-05 Peter, Matthew, Thomas, John :Who were these men and what was their relationship to Jesus? Tom Bissell gives us rich and deeply informed answers to those ancient questions. Written with warmth, humour, and a rare acumen, *Apostle* is a brilliant and exhaustive synthesis of travel writing, centuries of biblical history, and a deep lifelong relationship with Christianity. Bissell explores not just who these renowned and pious men were (and weren't), but how their identities have taken shape over two millennia. Bissell, in his search for this elusive set of truths, has traveled the world, visiting holy sites from Rome and Jerusalem to Turkey, India, and Kyrgyzstan, and he captures vividly the rich diversity of Christianity's global reach. *Apostle* is an unusual, erudite, and hilarious book, an intoxicating combination of religious, intellectual, and personal adventure.

Problems of Democratisation in Indonesia Edward Aspinall 2010 Alternately lauded as a democratic success story and decried as a flawed democracy, Indonesia deserves serious consideration by anyone concerned with the global state of democracy. Yet, more than ten years after the collapse of the authoritarian Suharto regime, we still know little about how the key institutions of Indonesian democracy actually function. This book, written by leading democracy experts and scholars of Indonesia, presents a sorely needed study of the inner workings of Indonesia...

Padre Pio and I Adolfo Affatato 2019-02-13 Adolfo Affatato is one of the last living spiritual sons of St. Pio of Pietrelcina. Recently translated into English, "Padre Pio and I" is the culmination of what he witnessed as he sat by the saint's side for sixteen years. This is not a typical biography by a journalist, friar, or academic; instead, the author presents "the Padre" intimately and personally -- as a father figure who tenderly guided and directed him. This book is filled with riveting new accounts of the mystical side of Padre Pio: from the moment Affatato was called by name by Padre Pio out of a crowd to Padre Pio's characteristic rose-scented fragrance Affatato does not disappoint. Yet, the author's motivation

for writing this book is not to boast of supernatural phenomena he was privileged to witness. Instead, it is a response to what Padre Pio once told him some six decades ago: "Give the love that I have put into your heart to those to whom you draw near, because in this is the meaning of life." And Adolfo has spent his adult life responding to that mandate. While most octogenarians spend their final years in repose, Adolfo tirelessly traverses the Italian peninsula giving conferences to audiences of a few dozen or a few thousand. He has spoken to popes, cardinals and countesses and regularly appears on Catholic radio and secular prime-time talk shows alike. And he never accepts a cent for his work; all proceeds for his book sales are donated to a charity. Now for the first time what Adolfo received from Padre Pio is available in English. For those who want to know Padre Pio "more and better" this book is a must read. "This book has touched the heart of Italy; yet, it also touched me. This book can change your life." Andrea Bocelli

How to Play the Piano James Rhodes 2016-10-06 Learn to play one of Bach's most exquisite preludes in just 6 weeks, even if you have never played the piano before. An accessible and inspiring book by the pianist and international bestselling writer James Rhodes, who promises that it gives anyone with two hands, a piano or an electric keyboard and just 45 minutes a day the tools they need to learn to play Bach's *Prelude No. 1 in C Major* in 6 weeks, even if they know nothing about music and have never even touched a piano before. How often do we convince ourselves that it's just too late - too late to learn how to ride a bike, too late to know how to meditate, too late to travel the world... As we get older and time slips through our fingers like water, we become resigned, almost defeatist, about abandoning our dreams. For James Rhodes, after the inevitable "How many hours a day do you practice?" and "Show me your hands", the most common thing people say to him when they hear he's a pianist is "I used to play the piano as a kid. I really regret giving it up". Where does this mourned and misplaced creativity go? For Rhodes, it's still there to be tapped into by all of us, at any point. This inspirational book gives us the means to do this, by breaking up Bach's seminal *Prelude No. 1* from the *Well-Tempered Clavier* into manageable segments, teaching us the basics of piano playing - how to read music, the difference between the treble and the bass clef, sharp and flat notes, how to practice etc.. - and encouraging personal interpretation in a way that is guaranteed to soothe the mind, feed the soul and unleash creative powers we didn't know we still had. All of this will culminate in an ability to perform one of Bach's masterpieces. "If listening to music is soothing for the soul, then playing music is achieving enlightenment. It's going from kicking a ball around with a few pals to playing alongside Ronaldo."

Corporate Social Irresponsibility Ralph Tench 2012 Corporate social responsibility (CSR) has become an increasingly heated topic since the 1980s. But there are severe limitations with the concept of CSR and the effectiveness of CSR practices. Addressing such limitations, this volume proposes that the concept of Corporate Social Irresponsibility (CSI) offers a better theoretical platform to avoid the vagueness,

ambiguity, arbitrariness and mysticism of CSR. It challenges conventional modes of thinking, unveils the CSR mask of business practices and redirects public attention to the core issues of CSR. This collective work sets up an initial theoretical framework for the subject of CSI and examines the fundamental reasons for irresponsibility in and beyond a corporate context. Rooted in theory and practice it seeks to understand how boundaries of CSR and CSI have been constructed in society, and explores some systemic and structural issues of CSI in practice.

Pornified Pamela Paul 2007-04-01 "Strips porn of its culture-war claptrap . . . Pornified may stand as a Kinsey Report for our time."—San Francisco Chronicle Porn in America is everywhere—not just in cybersex and Playboy but in popular video games, advice columns, and reality television shows, and on the bestseller lists. Even more striking, as porn has become affordable, accessible, and anonymous, it has become increasingly acceptable—and a big part of the personal lives of many men and women. In this controversial and critically acclaimed book, Pamela Paul argues that as porn becomes more pervasive, it is destroying our marriages and families as well as distorting our children's ideas of sex and sexuality. Based on more than one hundred interviews and a nationally representative poll, Pornified exposes how porn has infiltrated our lives, from the wife agonizing over the late-night hours her husband spends on porn Web sites to the parents stunned to learn their twelve-year-old son has seen a hardcore porn film. Pornified is an insightful, shocking, and important investigation into the costs and consequences of pornography for our families and our culture.

Hothouse Earth Stephanie Sammartino McPherson 2021-03-02 As hurricanes, droughts, floods, and wildfires are increasing in regularity and intensity, climate change can no longer be ignored. Melting permafrost, forest dieback, ocean acidification, and other processes are creating positive feedback loops which could, if not aggressively and quickly addressed, spiral out of control and take global warming past the point of no return. Hothouse Earth examines how science, politics, and social justice must all be part of the equation to counteract climate change.

Optimasi perencanaan produksi pada kombinasi produk dengan metode linear programming Didi Pianda 2018-04-16 Naskah buku ini terbagi beberapa bagian, antara lain; bagian pertama pendahuluan, yang berisikan latar belakang masalah menghantarkan pembaca dalam mengaplikasikan program linear programming. Penulis mengambil kasus pada PT. Ima Mountaz Sejahtera Lhokseumawe, adalah suatu perusahaan yang bergerak dalam industri pengolahan air minum dalam kemasan (AMDK) bermerk MOUNT AQUA dalam kemasan yaitu kemasan 250 ml, kemasan 600 ml, kemasan 1500 ml dan kemasan Gallon (19 liter). Dalam suatu industri adanya kondisi dimana keterbatasan faktor-faktor produksi seperti, bahan baku, tenaga kerja, mesin, modal dan jumlah permintaan mengakibatkan munculnya permasalahan dalam kombinasi produk. Agar mencapai laba yang maksimum maka perusahaan harus menentukan secara tepat jumlah masing-masing jenis produk yang akan dihasilkan, karena setiap jenis produk memerlukan biaya produksi yang berbeda-beda dan akan memberikan keuntungan yang berbeda-beda pula. Untuk menentukan kombinasi produk tersebut akan digunakan metode linear programming. Tingkat permintaan pasar ditentukan dengan melakukan peramalan menggunakan data penjualan produk tahun-tahun sebelumnya. Peramalan dilakukan dengan Software Quantitative System (S-QS) untuk hasil yang lebih cepat, akurat dan teliti. Bagian kedua landasan teori, dimana pada bab ini menjelaskan teori-teori yang diuraikan sebagai referensi dalam penelitian antara lain; perencanaan produksi, peramalan (forecasting), biaya pabrikasi, analisa marginal income, dan linear programming. Bagian ketiga metodologi & pengumpulan data, dimana penelitian yang digunakan adalah penelitian kuantitatif dengan pendekatan model permasalahan diformulasikan dalam bentuk matematis linear programming, dengan menentukan variabel keputusan, penentuan dan perumusan fungsi tujuan dan penentuan fungsi pembatas. Data-data diperoleh dengan melakukan observasi, wawancara, studi dokumentasi, dan studi pustaka. Bagian keempat pengolahan data & hasil penelitian. Pengolahan dan analisis data ini menggunakan analisis deskripsi yang bertujuan untuk memberikan solusi yang optimal dari jumlah produksi dan keuntungan (total marginal income).

Choosing for Changing Selves Richard Pettigrew 2020-01-12 What we value, like, endorse, want, and prefer changes over the course of our lives, sometimes as a result of decisions we make--such as when we choose to become a parent or move to a new country--and sometimes as a result of forces beyond our control--such as when our political views change as we grow older. This poses a problem for any theory of how we ought to make decisions. Which values and preferences should we appeal to when we are making our decisions? Our current values? Our past ones? Our future ones? Or some amalgamation of all them? But if that, which amalgamation? In Choosing for Changing Selves, Richard Pettigrew presents a theory of rational decision making for agents who recognise that their values will change over time and whose decisions will affect those future times.
