The Good Women of China Xinran 2002 This work presents women's stories collected by Xinran Xue when she was hosting a radio phone-in about women's lives in China. The stories reveal what it means to be a woman in today's China, telling of almost inconceivable suffering as well as love in the face of cruelty and politics.

Personal Voices Emily Honig 1988 Dramatic and far-reaching changes have occurred in the lives of Chinese women in the years since the death of Mao and the fall of the Gang of Four During the decade of the Cultural Revolution, attention to personal life was regarded as 'bourgeois'; in the post-Mao decade, abrupt turns in public policy made discussion of personal life imperative, and nowhere has this been more evident than in the debate about the role of women in Chinese society. This book is based on extensive personal viewing

of urban women and study of contemporary literature and articles in the periodical press that touched on the problems of rural women. It is not only about the changes in women's lives but also about the excitement, confusion, and anxieties that Chinese women express as they contemplate the future of their society and their own place in it. Each chapter is devoted to one aspect of women's Lives: girlhood, adornment and sexuality, courtship, marriage, family relations, divorce, work, violence against women, and gender inequality. Giving a personal dimension to the issues discussed, the chapters close with a rich sampling of excerpts from the newly thriving women's press and other contemporary publications. Although many women in China still suffer discrimination in working life and mistreatment in the family, they can now raise questions that would have been unthinkable even ten years ago. Most notably, they can and do use the press to voice complaints, expose injustices, seek advice, and support or deplore the social changes of the 1980's.

China Dreams Chih-Shian Liou 2015-01-29 With the theme “China Dreams: Opportunities and Challenges,” this book contributes to emerging debates on Chinese new leadership's adaptability to important political, economic, social, and global issues. Can China's political system sustain “China Dreams”, a slogan ushered by Chinese President Xi Jinping? Does the fulfillment of “China Dreams” require political reform? Does the initiation of the agenda of “China Dreams” facilitate China's economic transition? To what extent does “China Dreams” pave the way for China's peaceful rise? By exploring the preceding

questions, the essays by Lowell Dittmer, Thomas Gold, Victoria Tin-bor Hui, Chin-fu Hung, Scott L Kastner, Huey-Lin Lee & Scott Y Lin, Chih-shian Liou, Raviprasad Narayanan, Kellee S Tsai, and Chung-min Tsai provide a comprehensive analysis of the agenda of China's new leadership.

Regulated Distribution: A China Dream to Feed Itself under Spatially Imbalanced Development (Huey-Lin Lee and Scott Y Lin) Readership: Academics, professionals, undergraduate and graduate students interested in China's political system, China's new leadership and agenda of "China Dreams". Key Features: A timely and comprehensive treatment of the issues associated with "China Dreams" In-depth analyses by leading scholars in China Studies Keywords: The China Dream; Xi Jinping; Chinese Leadership; Chinese Communist Party; China Reviews: "In this timely and pioneering publication, the authors asked the questions of where China wants to go and where it is actually going. While Mr Xi Jinping's 'China Dreams' suggested an all-encompassing China agenda, the imagination, interpretation and realization of the Dreams have been far more dynamic and not necessarily coherent. This well-edited volume covers key areas of China's political, economic and social development under Xi's leadership. The collection stands out in its balanced treatment of both the state and grassroots actors, and both the shared and separate dreams. It also makes a great contribution to the literature on Global China, as much of the 'China Dreams' is inevitably connected with the dreams of other peoples and countries." You-tien Hsing Professor of Geography

Pamela P Fong and Family Distinguished Chair in China Studies Chair of Center for Chinese Studies University of California at Berkeley "Written by leading scholars of Chinese politics, economics, history, and society, this volume is one of the first to analyze Chinese leader Xi Jinping's notion of 'China Dreams'; Exploring both the content and likely impact of Xi's 'China Dreams', the authors paint a multifaceted picture of China's historical development, current status, and future trajectory — both domestically and internationally. Their findings suggest that China's leaders face substantial challenges, and that the realization of Xi's 'Dreams' may not be smooth. Some groups and vested interests appear determined to resist or redirect Xi's 'Dreams'. And there are signs that conflict and tension may accelerate, not only between the Chinese party-state and its people, but also within the party-state, and between China and other countries. For readers seeking a wide range of perspectives on China's rise, this volume provides much food for thought." Teresa Wright Chair and Professor of Political Science, California State University

China at War, 1901-1949 Edward L. Dreyer 1995 Explores the military dimension of Chinese history

People's China Craig Dietrich 1986-01 A balanced and lively history of the People's Republic of China, this remarkable book sketches the historical circumstances of the Chinese revolution and the cast of characters who seized power in 1949 after decades of national disintegration and defeat. The author argues that Mao did not single-handedly shape China's recent history; rather, events grew out of the complex interaction between Mao, other major Chinese leaders, influential political organizations, and an often unpredictable population. He also evaluates the nature and success of China's goals of economic and social modernization under communist rule. Clearly and chronologically, this book tells the essential story of contemporary China: the background, the ideology, the massive campaigns, the bureaucratization, the blunders, and the achievements.

Rising Son Janita Lo 2011-05 Daughter recounts father's life as Chinese legend in historical novel. Fulfilling her father's last wish, Janita Lo shares his real life stories in "Rising Son: Reflections of a Chinese Gentleman Warrior." HOUSTON - Based on the true first-hand accounts of Khan Ling and his wife, Che Yu, Janita Lo has lovingly combined her parent's stories into a cohesive work of historical fiction, "Rising Son: Reflections of a Chinese Gentleman Warrior" (ISBN: 0615426042). "I am Khan Ling, son of Khan Bei, a descendant of Genghis Khan; the only heir of my grandfather, Khan Gong Shun, Royal

Army Commander of the Ch'ing Dynasty and of my grandmother, Princess May Szee, granddaughter of the Emperor Xianfeng...These are merely the particulars of my lineage. It is not so much the people, but rather the circumstances and my own choices that have made me who I am today." Thus begins the story of Khan Ling. In "Rising Son: Reflections of a Chinese Gentleman Warrior," Lo tells the story of her father, Khan Ling, in his own voice, bringing life to the stories he told her as a child. Ranging through the turmoil of late 1800's Ch'ing (Qing) Dynasty in China to the early 19th century, the story of Khan Ling is a tale of bravery, excitement and intrigue, but also a tale of loss and loneliness. Lo, speaking in the voice of her father, aims to express the longings of a young boy growing to adulthood in the tumultuous era before and including World War II. Khan was born in a Buddhist temple to a Chinese father and a Japanese mother. After the death of his father, Khan was reared at the temple by the monks who lived and studied there. Though surrounded by caring teachers, he missed the comfort and care of his mother and father. Later on he would lose his mother to tragedy. These events would color his life and exploits throughout a long life. Khan Ling served in the Chinese intelligence department under Chiang Kai-shek in the conflict with

Japan. During this time, China was debating the role of Western influences as the country shifted from dynastic rule into an industrialized society. Throughout these events, Ling struggled with the internal conflict of his half-Chinese and half-Japanese lineage, though he did eventually place his loyalty firmly with China. He fought against the Japanese underground and was able to help release many Chinese families held captive by the Japanese in Hong Kong from 1943-1945. "This is more than a story about a man of heroic achievement," says Lo. "It's a study of the human soul, about young love, romance, chivalry, loss, longing and the desire for the nurturing of a family." This story provides a rich, textured look at the human experience as well as the exciting, enigmatic life of a local legend from royal lineage whose name was omitted from Chinese history books due to the misconceptions that surrounded him. Honestly and with historical accuracy, Lo takes her readers to Khan's China, where danger and opportunity walked hand in hand; where a young Chinese gentleman fulfilled his destiny. Lo lets readers experience the mysterious Chinese culture: patriotism, heroism, bravery, compassion, love, romance and the power of the human spirit under extraordinary circumstances in "Rising Son: Reflections of a Chinese Gentleman Warrior." The historical

information in this manuscript is authentic. The main characters heroic and humanitarian accomplishments are painstakingly recounted through the tales told by her late father, Khan Ling. "Rising Son," would appeal to readers who enjoy the real-live drama of historical accounts and personal memoirs.

Educational and enlightening in so many respects, "Rising Son" is a timely addition to the literary world and contemporary reader's bookshelf especially considering the growing importance of China in our everyday lives.

Globalization after the Pandemic Qin Hui 2021-08-30 The coronavirus pandemic that broke out in 2019 has finally calmed down in China, after the bungling occasioned by the iron hand of lockdown. But beginning in March 2020, the disaster spread abroad, and at present there is no end in sight. Discussions of the changes the pandemic brings to the world, and how "plagues change history," are a hot topic everywhere. In this book, Prof. Qin Hui offers a stunning reflection on the impact of the coronavirus pandemic on

political institutions, which are well worth pondering for both China and the West. China, with its “low human rights advantage,” has achieved success in imposing coercive lockdowns that got the virus under control after the disastrous outbreak in Wuhan, but it will be a challenge to prevent the normalization of emergency measures from worsening human right conditions in normal times. The West, handicapped by its " human rights (dis)advantage," must learn how a democracy can efficiently enter a state of emergency and put an end to these measures at the proper time. Tea War Andrew B. Liu 2020-04-14 A history of capitalism in nineteenth- and twentieth-century China and India exploring the competition between their tea industries Tea remains the world's most popular commercial drink today, and at the turn of the twentieth century, it represented the largest export industry of both China and colonial India. In analyzing the global competition between Chinese and Indian tea, Andrew B. Liu challenges past economic histories premised on the technical "divergence" between the West and the Rest, arguing instead that seemingly traditional technologies and practices were central to modern capital accumulation across Asia. He shows how competitive pressures compelled Chinese merchants to adopt abstract, industrial conceptions of time, while colonial planters in India pushed for labor indenture laws to support factory-style tea plantations. Further,

characterizations of China and India as premodern backwaters, he explains, were themselves the historical result of new notions of political economy adopted by Chinese and Indian nationalists, who discovered that these abstract ideas corresponded to concrete social changes in their local surroundings. Together, these stories point toward a more flexible and globally oriented conceptualization of the history of capitalism in China and India.

China Dream Ma Jian 2018-11-01 'One of China's greatest living novelists' Guardian Blending fact with fiction, China Dream is an unflinching satire of totalitarianism. After decades of loyal service, Ma Daode, a corrupt and lecherous party official, has been appointed director of the China Dream Bureau, charged with promoting President Xi Jinping's China Dream of national rejuvenation. But just as he is about to present his plan for a microchip that will be implanted into the brain of every citizen to replace all painful recollections with a collective dream of national supremacy, his sanity begins to unravel. Plagued by flashbacks of the Cultural Revolution, his nightmare visions from the past threaten to destroy his dream of a glorious future. This darkly comic fable is a dystopian vision of repression and state-enforced amnesia set not in the future, but in China today. Documentaries and China's National Image Chen Yi 2022-08-30 Emphasizing the role of documentary in shaping a nation-state's image, demonstrating social development and promoting cultural exchanges, this book examines the changes in China's national image in documentaries at home and abroad since 1949. Based on theoretical frameworks of media sociology, political economy of communication and cultural studies, the book traces the development of Chinese documentary and discusses social transformation and cultural representation embodied in documentaries related to China. It is revealed how these works witness, reflect and interact with social transitions in all aspects of a modernizing China, as well as how documentary production struggles among and mediates between technology, market, ideology, social forces and professionalism. In terms of future prospects of documentary in an era when media convergence is burgeoning, the author explores feasible paths to further promotion of cross-cultural communication and China's national image, by analyzing documentary aesthetics and representative cases of documentary practice. The title will appeal to scholars and students interested in culture and communication, documentary, film, media and

Chinese society.

Let 100 Voices Speak Liz Carter 2015-07-16 From the Occupy movement in the Western world to the Arab Spring and the role of Twitter in the Middle East, the internet and social media is changing the global landscape. China is next. Despite being a heavily-censored society, China has over 560 million active internet users, more than double that of the USA. In this book, social media expert and China-watcher Liz Carter tells the story of how the internet in China is leading to a coming together of activists, ordinary people and cultural trendsetters on a scale unknown in modern history. News about protests and natural disasters, or gossip and satirical jokes, are practically uncensorable and spread quickly through Weibo - the Chinese Twitter - and the Chinese internet underground. More than that, a grassroots, foundational shift of assumptions and expectations is taking place, as Chinese men and women cast off the communistera 'stability at all costs' mantra and find new forms of selfexpression, creativity and communication with the world.

Leaving the World to Enter the World Mark Leenhouts 2005 Leaving the World to Enter the World focuses on the fictional and theoretical writings of Han Shaogong, one of the most striking voices in contemporary Chinese literature.

Han played a central role in the 'root-seeking' trend that dominated the literary scene of the People's Republic of China in the mid-1980s. His work has won him acclaim from a wide range of readers in Chinese and other languages, a highlight being the 1996 novel *Dictionary of Maqiao*. Critics have labeled Han the leader of a nationalist movement in search of a cultural identity. Mark Leenhouts shows that Han's role is much more complex, demonstrating that his literary practice is a highly individual, creative continuation of Chinese tradition. Han's personal style transcends the narrow boundaries of root-seeking as it has been portrayed in literary histories and criticism to date. This rectification of the one-sided image of Han Shaogong has profound implications for the significance of root-seeking literature, and for questions of tradition and modernity that have been among the most hotly debated topics in Chinese literary, intellectual and political thought throughout the 20th century. *Leaving the World to Enter the World* does justice to the individuality of the literary author by taking the intrinsic structure of the literary work as its starting point. Leenhouts' close textual analysis, as intelligent and pragmatic as it is sensitive, will help counterbalance the socio-political orientation typical of much recent research. By seeing Han Shaogong as a writer rather than a

mouthpiece of historical forces, this book opens up new perspectives for enjoying his literary mastery.

Rhetoric of the Chinese Cultural Revolution Xing Lu 2004 Now known to the Chinese as the "ten years of chaos," the Chinese Cultural Revolution (1966-1976) brought death to thousands and persecution to millions. Xing Lu identifies the rhetorical features and explores the persuasive effects of political language and symbolic practices during the period. She examines how leaders of the Communist Party enacted a rhetoric in political contexts to legitimize power and violence and to dehumanize a group of people identified as class enemies.

Culture, Music Education, and the Chinese Dream in Mainland China Wai-Chung Ho 2018-01-04 This book focuses on the rapidly changing sociology of music as manifested in Chinese society and Chinese education. It examines

how social changes and cultural politics affect how music is currently being used in connection with the Chinese dream. While there is a growing trend toward incorporating the Chinese dream into school education and higher education, there has been no scholarly discussion to date. The combination of cultural politics, transformed authority relations, and officially approved songs can provide us with an understanding of the official content on the Chinese dream that is conveyed in today's Chinese society, and how these factors have influenced the renewal of values-based education and practices in school music education in China.

China and the American Dream Richard Madsen 1995 From the "Red Menace" to Tiananmen Square, the United States and China have long had an emotionally tumultuous relationship. Richard Madsen's frank and innovative examination of the moral history of U.S.-China relations targets the forces that have shaped this surprisingly strong tie between two strikingly different nations. Combining his expertise as a sinologist with the vision of America developed in *Habits of the Heart* and *The Good Society*, Madsen studies the cultural myths that have shaped the perceptions of people of both nations for the past twenty-five years. The dominant American myth about China, born in

the 1960s, foresaw Western ideals of economic, intellectual, and political freedom emerging triumphant throughout the world. Nixon's visit to China nurtured this idea, and by the 1980s it was helping to sustain America's hopefulness about its own democratic identity. Meanwhile, Chinese popular culture has focused on the U.S., especially American consumer goods-Coca-Cola was described by the People's Daily as "capitalism concentrated in a bottle." Today we face a new global institutional and cultural environment in which the old myths no longer work for either Americans or Chinese. Madsen provides a framework for us to think about the relationship between democratic ideals and economic/political realities in the post-Cold War world. What he proposes is no less than the foundation for building a public philosophy for the emerging world order.

China's Just World Chih-yu Shih 1993 Looking at China's foreign policy, this book focuses on the Confucian-based need of Chinese leaders to present themselves as the supreme moral rectifiers of the world order.

China Dreams William A. Callahan 2015-04-01 After celebrating their country's three decades of fantastic economic success, many Chinese are now asking, "What comes next?" How can China convert its growing economic power into

political and cultural influence around the globe? William A. Callahan's *China Dreams* gives voice to China's many different futures by exploring the grand aspirations and deep anxieties of a broad group of public intellectuals. Stepping outside the narrow politics of officials vs. dissidents, Callahan examines what a third group--"citizen intellectuals"--think about China's future. *China Dreams* eavesdrops on fascinating conversations between officials, scholars, soldiers, bloggers, novelists, film-makers and artists to see how they describe China's different political, strategic, economic, social and cultural futures. Callahan also examines how the PRC's new generation of twenty- and thirty-somethings is creatively questioning "The China Model" of economic development. The personal stories of these citizen intellectuals illustrate China's zeitgeist and a complicated mix of hopes and fears about "The Chinese Century," providing a clearer sense of how the PRC's dramatic economic and cultural transitions will affect the rest of the world. *China Dreams* explores the transnational connections between American and Chinese people, providing a new approach to Sino-American relations. While many assume that 21st century global politics will be a battle of Confucian China vs. the democratic west, Callahan weaves Chinese and American ideals

together to describe a new "Chimerican dream."

La notte scorsa al Telegraph Club Malinda Lo 2022-05-13 Lily Hu ha diciassette anni e non ricorda esattamente quando sia nata in lei la domanda. Ma di sicuro la risposta l'ha trovata insieme a Kathleen Miller sotto l'insegna al neon del Telegraph Club, un locale per lesbiche. L'America del 1954, però, non è un luogo sicuro per due ragazze che si amano, soprattutto a Chinatown. La paranoia del maccartismo investe tutti, soprattutto i cittadini cinesi americani come la famiglia di Lily: nonostante il padre si sia duramente guadagnato la cittadinanza negli Stati Uniti, infatti, il rischio della deportazione è ancora alto. Ma Lily e Kath sono disposte a rischiare tutto purché il loro amore fiorisca alla luce del giorno.

China and the American Dream Richard Madsen 1995-03-08 From the "Red Menace" to Tiananmen Square, the United States and China have long had an emotionally tumultuous relationship. Richard Madsen's frank and innovative examination of the moral history of U.S.-China relations targets the forces that have shaped this surprisingly strong tie between two strikingly different nations. Combining his expertise as a sinologist with the vision of America developed in *Habits of the Heart* and *The Good Society*, Madsen studies the

cultural myths that have shaped the perceptions of people of both nations for the past twenty-five years. The dominant American myth about China, born in the 1960s, foresaw Western ideals of economic, intellectual, and political freedom emerging triumphant throughout the world. Nixon's visit to China nurtured this idea, and by the 1980s it was helping to sustain America's hopefulness about its own democratic identity. Meanwhile, Chinese popular culture has focused on the U.S., especially American consumer goods—Coca-Cola was described by the People's Daily as "capitalism concentrated in a bottle." Today we face a new global institutional and cultural environment in which the old myths no longer work for either Americans or Chinese. Madsen provides a framework for us to think about the relationship between democratic ideals and economic/political realities in the post-Cold War world. What he proposes is no less than the foundation for building a public philosophy for the emerging world order.

Chinese American Voices Judy Yung 2006 "Skillfully selected, translated, and annotated, this compelling compendium of voices bear witness to the diversity and depth of the Chinese American experience and, significantly, its indispensable centrality to American life and history."--Gary Y. of Common Ground: Reimagining American History "Here at last is a wide-ranging record of Chinese American experiences from the viewpoints of the players. Chinese American Voices is an impressive feat of scholarship, an indispensable reference, and a compelling read."--Ruthanne Lum McCunn, author of *Thousand Pieces of Gold* and *The Moon Pearl* "This anthology offers a virtual "Gam Saan" (Gold Mountain) of original sources. The stories burst with telling and re-affirm a vision of men and women as actors in history, who made themselves as Chinese Americans as they helped to make America itself."--Ronald Takaki, author of *Strangers from a Different Shore: A History of Asian Americans* "This volume of sixty-two annotated documents, many translated from Chinese for the first time, is a boon to faculty and students interested in Chinese American history, Asian American history, U.S. immigration history, and race and ethnic relations. The life stories, in particular, are appealing for students, the reading public, and scholars alike as they hear the voices of individuals long misunderstood, denigrated, and silenced. All of us owe a debt of gratitude to the three editors for their dedicated labor of love."--Sucheng Chan, author of *Chinese American Transnationalism: The Flow of People, Resources, and Ideas between China and America during the*

Exclusion Era "This is a superb collection."--Roger Daniels, author of *Guarding the Golden Door: American Immigration Policy and Immigrants since 1882*

Voices from Tibet Tsering Woeser 2014-01-01 'Voices from Tibet' assembles essays and reportage in translation that capture many facets of the upheavals wrought by a rising China upon a sacred land and its pious people. With the TAR in a virtual lockdown after the 2008 unrest, this book sheds important light on the simmering frustrations that touched off the unrest and Beijing's relentless control tactics in its wake. The authors also interrogate long-standing assumptions about the Tibetans' political future. Woeser's and Wang's writings represent a rare Chinese view sympathetic to Tibetan causes. Their powerful testimony should resonate in many places confronting threats of cultural subjugation and economic domination by an external power.

Asian Voices in English Mimi Chan 1991-08-01 A selection of papers presented at the Symposium on English Literature by Asian authors entitled Asian Voices in English held at The University of Hong Kong, 27-30 April 1990. Two kinds of writing experience are focused upon: one is the experience of post-colonial writers, who are re-appropriating the English language for their own cultural purposes. The other is the experience of immigrant writers, who bring an Asian view to bear on the culture of the English-speaking countries in which they live.
