Anything But Average, an Autobiography David Boyce 2018-01-02 David was always meant to explore the back roads of the American southwest. For him, the more remote, the better; and the more beautiful, the more intellectually enticing. He always wanted to see for himself what those empty places on the map actually looked like. As a teenager, he hiked across Yosemite, harvested crops up the coast, and climbed major peaks in three states. As a Navajo speaker, he spent many years on the Indian Reservation, as a missionary and as a trader. Back in Utah, he began studying the geology of the Colorado Plateau. He has worked many jobs, including small business owner, miner, prospector, and assayer. But the job of geologist/tour guide for the local university was meant for him. A visitor on one of his tours described him as "...an inspiring example of a person following his interests until he found his calling." True, David feels that sharing the southwest is his destiny. If he could live anywhere he wanted, he would choose southern Utah.
