The Military Commander and the Law Air Force Judge Advocate General School 2004-06 Today's Air Force commanders face a wide-range of issues, many of which involve complex statutes, laws, regulations, and rules. Our commanders must deal with challenging legal matters ranging from military justice to environmental law to operations law. To assist commanders with these formidable tasks, we've created this helpful volume, The Military Commander and the Law. This deskbook contains a series of papers that give commanders a head start on the wide array of issues they will handle. Each article is intended to give a commander the basics in the law on any given subject. The papers are not intended to make the commander a legal expert or to resolve specific questions relating to any unique problem. Lance W. The Military Justice System United States. Air Force ROTC. 1962 "This text is designed to give the advanced Air Force ROTC student an over-all view of the military justice system, of how it operates in the Air Force, and of the

general responsibilities of those in 'authority or command' who must administer the system. And, above all, it is hoped that the text will engender a feeling that military justice is directly, intimately, and essentially concerned with human conduct - rather than with arbitrary rules, legalistic distinctions, and inflexible classifications"--Pref. Substance Use Disorders in the U.S. Armed Forces Institute of Medicine 2013-03-21 Problems stemming from the misuse and abuse of alcohol and other drugs are by no means a new phenomenon, although the face of the issues has changed in recent years. National trends indicate substantial increases in the abuse of prescription medications. These increases are particularly prominent within the military, a population that also continues to experience long-standing issues with alcohol abuse. The problem of substance abuse within the military has come under new scrutiny in the context of the two concurrent wars in which the United States has been engaged during the past decade--in Afghanistan (Operation Enduring Freedom) and Iraq (Operation Iraqi Freedom and Operation New Dawn). Increasing rates of alcohol and other drug misuse adversely affect military readiness, family readiness, and safety, thereby posing a significant public health problem for the Department of Defense (DoD). To better understand this problem, DoD requested that the Institute of Medicine (IOM) assess the adequacy of current protocols in place across DoD and the different branches of the military pertaining to the prevention, screening, diagnosis, and treatment of substance use disorders (SUDs). Substance Use Disorders in the U.S. Armed Forces reviews the IOM's task of assessing access to SUD care for service members, members of the National Guard and Reserves, and military dependents, as well as the education and credentialing of SUD care providers, and offers specific recommendations to DoD on where and how improvements in these areas could be made.

The Military Commander and The Law - Fourteen Edition (2017) Usaf Colonel Bryan D Watson 2018-07-18 The Military Commander and the Law is a publication of The Judge Advocate General's School. This publication is used as a deskbook for instruction at various commander courses at Air University. It also serves as a helpful reference guide for commanders in the field, providing general guidance and helping commanders to clarify

issues and identify potential problem areas. As with any publication of secondary authority, this deskbook should not be used as the basis for action on specific cases. Primary authority, much of which is cited in this edition, should first be carefully reviewed. Finally, this deskbook does not serve as a substitute for advice from the staff judge advocate.

The Armed Forces Officer Richard Moody Swain 2017 In 1950, when he commissioned the first edition of The Armed Forces Officer, Secretary of Defense George C. Marshall told its author, S.L.A. Marshall, that "American military officers, of whatever service, should share common ground ethically and morally." In this new edition, the authors methodically explore that common ground, reflecting on the basics of the Profession of Arms, and the officer's special place and distinctive obligations within that profession and especially to the Constitution.

You must also properly train your Soldiers on all Army policies and higher level command standards so that they also understand and comply with them. Soldiers must also be well-versed in the Army Values and be able to apply those values to real- world situations, which will usually keep them well within legal bounds. The Noncommissioned Officer and Petty Officer National Defense University Press 2013-12 Full color publication with photographs. A first of its kind, this book-of, by, and for the noncommissioned officer and petty officer-is a comprehensive explanation of the enlisted leader across the U.S. Armed Services. It complements The Armed Forces Officer, the latest edition of which was published by NDU Press in 2007, as well as the Services' NCO/PO manuals and handbooks. Written by a team of Active, Reserve, and retired senior enlisted leaders from all Service branches, this book defines and describes how NCOs/POs fit into an organization, centers them in the Profession of Arms, explains their dual roles of complementing the officer and enabling the force, and exposes their international engagement. As Chairman of the Joint Chiefs of Staff General Martin E. Dempsey writes in his foreword to the book, "We know noncommissioned officers and petty officers to have

exceptional competence, professional character, and soldierly grit—they are exemplars of our Profession of Arms." Aspirational and fulfilling, this book helps prepare young men and women who strive to become NCOs/POs, re-inspires serving enlisted leaders, and stimulates reflection by those who have retired from or left active service. It also gives those who have never worn the uniform a better understanding of who these exceptional men and women are, and why they are properly known as the "Backbone of the Armed Forces."

The Origins of the American Military Coup Of 2012 Charles J. Dunlap, Jr. 2013-04-03 1. As you know, in the last few months since the President's death and the abrupt retirement of the Vice President, there have been some instances of public unrest. I fully appreciate that the threat of disorder occasioned by the absence of a Chief

Executive precipitated your assumption of power as Commander-in-Chief, UAFUS, and your designation of yourself as permanent Military Plenipotentiary of the United States. It is obvious to me that strong leadership is needed in these troubled times. Indeed, I am convinced that it was inept civilian leadership that caused our defeat in the Second Gulf War. 2. Despite the approval of your actions by The Referendum, it was still necessary to make several arrests for acts of sedition. One of these traitors, I am sorry to say, is a retired officer and a 1992 graduate of the National War College. The officer, Prisoner 222305759, has been convicted by court-martial and is awaiting execution. In violation of my standing orders, the prisoner was allowed writing materials. Somehow he managed to draft a letter to a fellow alumnus chronicling what he calls the "Origins of the American Military Coup of 2012." By hand-writing the letter he defeated the electroscribe scanners we placed in his cell. Fortunately, our security forces were still able to intercept it. 3. Because of its potential interest to you, a copy of the prisoner's letter is attached. As the document indicates, the prisoner evidently had secreted into the stockade old notes, articles, and newspaper clippings he saved from his War College days. These documents were recovered in a search of the prisoner's cell. For your edification, I have had an intelligence agent analyze them and annotate your copy of the letter with endnotes citing these references where appropriate. 4. Upon receipt of your order affirming the sentence of the court, Prisoner 222305759 will be executed in accordance with applicable directives. /s/ Ben N. Dykarnilt General, UAFUS
