MicroRNA Let-7 Neetu Dahiya 2012 MicroRNAs are small non-coding RNAs involved in post-transcriptional regulation of gene expression. Thousands of miRNAs have been identified in different organisms including viruses, insects, plants and animals. MiRNAs has emerged as key regulators of important biological processes. The differential expression of miRNAs in various human diseases has made them potential candidates for developing novel therapies and personalized medicines. This book is focused on microRNA let-7, the second miRNA discovered in the year 2000 and one of the most studied miRNA. This book discusses various aspects of miRNA let-7 starting from its discovery, biogenesis, transcriptional and posttranscriptional regulation to its crucial role in various fundamental cellular processes such as development, stem cell maintenance and differentiation, regulation of signalling pathways in cancer, drug resistance and therapeutic potential in different human diseases.

Message from an Unknown Chinese Mother Xinran 2012-03-06 Following her internationally bestselling book The Good Women of China, Xinran has written one of the most powerful accounts of the lives of Chinese women. Her searing stories of mothers who have been driven to abandon their daughters or give them up for adoption is a masterful and significant work of literary reportage and oral history. Xinran has gained entrance to the most pained, secret chambers in the hearts of Chinese mothers—students, successful businesswomen, midwives, peasants—who have given up their daughters. Whether as a consequence of the single-child policy, destructive age-old traditions, or hideous economic necessity, these women had to give up their daughters for adoption; others even had to watch as their baby daughters were taken away at birth and drowned. Xinran beautifully portrays the “extra-birth guerrillas” who travel the roads and the railways, evading the system, trying to hold on to more than one baby; naïve young girl students who have made life-wrecking mistakes; the “pebble mother” on the banks of the Yangtze River still looking into the depths for her stolen daughter; peasant women rejected by their families because they can’t produce a male heir; and Little Snow, the orphaned baby fostered by Xinran but confiscated by the state. For parents of adopted Chinese children and for the children themselves, this is an indispensable, powerful, and intensely moving book. Message from an Unknown Chinese Mother is powered by love and by heartbreak and will stay with readers long after they have turned the final page.

Marry Your Baby Daddy Maryann Reid 2007-04-01 When their unassuming Grandma June dies, Giovanna, Keyah, and Fatima are shocked to learn she had saved a small fortune and has left three million dollars to them, her granddaughters. But there's a catch: each sister must marry the father of her children no later than six months after reading the will. Piece of cake, right? Wrong! Each sister has a complicated relationship with her "baby daddy." Giovanna, a successful lawyer and a proudly independent woman, has no desire to marry Douglas---even if he makes her breath catch when he walks in the room and is a wonderful dad to their daughter. She's got a feeling that Douglas is keeping secrets. Keyah's boyfriend, Jag slipped a ring on her finger years ago but seems content to stay forever engaged. And Fatima's on-again, off-again relationship with Dune is filled with more ups and downs than a roller coaster. So why would Grandma June want her granddaughters to marry these men? Because sometimes Grandma really knows best. The clock is ticking. Will it be a countdown to wedding bells or disaster?

Multinational Finance Kirt C. Butler 2016-04-13 Deep coverage and rigorous examination of international corporate finance Multinational Finance offers an advanced exploration of international corporate finance concepts and operations. Despite its status as one of the most rigorous texts on the topic, this book remains accessible and readable without sacrificing depth of coverage. Sidebars, key terms, essays, conceptual questions, and problems with solutions help aid in the learning process, while suggested readings and PowerPoint handouts reinforce the material and offer avenues for further exploration. This new sixth edition includes Excel templates that allow students to use real-world tools in a learning environment, and the modular structure facilitates course customization to individual objectives, interests, and preparatory level. The emphasis is on the basics of financial management, but coverage includes unique chapters on treasury management, asset pricing, hedging, options, and portfolio management in addition to traditional finance topics. International finance is a diverse field with myriad specialties and a vast array of possible

interests. This book allows students to view the field through the lens of a financial manager with investment or financial options in more than one country to give them a practical feel for real-world application. Understand the nature and operations of international corporate finance Evaluate opportunities, costs, and risks of multinational operations See beyond the numbers and terminology to the general principles at work Learn the markets, currencies, taxation, capital structure, governance, and more Comprehensive, adaptable, and rigorously focused, this book gives students a solid foundation in international corporate finance, as well as a sound understanding of the tools and mechanics of the field. Designed for MBA and advanced undergraduate courses, Multinational Finance provides the deep coverage so essential to a solid education in finance.

Physical Sciences for NGSS Dr Tracey Greenwood 2020-05 Physical Sciences for NGSS has been specifically written to meet the requirements of the Next Generation Science Standards (NGSS) for High School Physical Sciences (HS-PS). It encompasses all three dimensions of the standards (science and engineering practices, crosscutting concepts, and disciplinary core ideas), addressing the program content through a wide range of engaging student-focused activities and investigations. Through completion of these activities, students build a sound understanding of science and engineering practices, recognize and understand the concepts that link all domains of science, and build the knowledge base required to integrate the three dimensions of the standards to meet the program's performance expectations.

Adventures in 'pataphysics Alfred Jarry 2001 The first of two volumes that will finally bring all of Jarry's works into English. It begins with his two privately printed books, *Black Minutes of Memorial Sand* and *Caesar Antichrist*; followed by philosophical, practical and aesthetic essays, *To be and To Live*, *Time in Art*. It concludes with Jarry's own selection of journalism, texts which indulge in wild speculation and black humour (Andre Breton coined the latter term in order to describe them). This collection helps explain his importance to the appearance of the modern movement in French literature.

Surf Like a Girl Carolina Amell 2019-09-10 Whether they're threading a barrel or shredding a swell, these amazing women are making enormous waves in the world of surfing. If you thought surfing was a male-dominated sport, think again. The thirty women surfers profiled in this thrilling collection can rip a wave with the best of them. Hailing from all over the world, each surfer is featured in spectacular photography and with their own inspirational words. There's American professional surfer Lindsay Steinriede on how her father's death has inspired her career; French board shaper Valerie Duprat on how she got her start "sculpting foam"; Conchita Rossler, founder of Mooana Retreat in Portugal, on connecting mind, body, and spirit; and Australian photographer Cait Miers on empowering women. You'll also meet surfers who are over sixty, who surf while pregnant, who captain boats, teach yoga, and make movies. Breathtaking photography captures these women from every angle, on and off the waves, in some of the world's most visually stunning locations. The perfect gift for surfing enthusiasts, this unique compilation of stunning pictures and hard-won wisdom proves that the thrill of catching a wave, riding it, and kicking out belongs to everyone.

Radar Instruction Manual United States. Maritime Administration 2005 Since 1958 the Maritime Administration has continuously conducted instructions in use of collision avoidance radar for qualified U.S. seafaring personnel and representatives of interested Federal and State Agencies. Beginning in 1963, to facilitate the expansion of training capabilities and at the same time to provide the most modern techniques in training methods, radar simulators were installed in Maritime Administration's three region schools. It soon became apparent that to properly instruct the trainees, even with the advanced equipment, a standardized up-to-date instruction manual was needed. The first manual was later revised to serve both as a classroom textbook and as an onboard reference handbook. This newly updated manual, the fourth revision, in keeping with Maritime Administration policy, has been restructured to include improved and more effective methods of plotting techniques for use in Ocean, Great Lakes, Coastwise and Inland Waters navigation. Buried Alive Myra Friedman 2011-04-27 Electrifying, highly acclaimed, and intensely personal, this new and updated version of Myra Friedman's classic biography of Janis Joplin teems with dramatic insights into Joplin's genius and into the chaotic times that catapulted her to fame as the legendary queen of rock. It is a stunning panorama of the turbulent decade when Joplin's was the rallying voice of a generation that lost itself in her music and found itself in her words. From her small hometown of Port Arthur, Texas, to San Francisco's Haight-Ashbury, from the intimate coffeehouses to the supercharged concert halls, from the glitter of worldwide fame to her tragic end in a Hollywood hotel, here is all the fire and anguish of an immortal, immensely talented, and troubled performer who devoured everything the rock scene had to offer in a fatal attempt to make peace with herself and her era. Yet, in an eloquent introduction recently written by the author, Joplin emerges from her "ugly duckling" childhood as a woman truly ahead of her time, an outrageous rebel, a defiant outcast and artist of incomparable authenticity who, almost in spite of herself, became to so many a symbol of triumph over adversity. This edition also contains an afterword detailing the whereabouts of a large and colorful cast of characters who were part of Joplin's life, as well as "We Remember Janis," a new chapter of poignant and affectionate anecdotes told by friends.
