Solutions to the Exercises - Open University

Solution 1.15 The first group contains 19 completed families. Some summary statistics are $m = 10$, $Z = 8.2$, $s = 5.2$, interquartile range = 10. For the second group of 35 completed families, summary statistics are $m = 4$, $Z = 4.8$, $s = 4.0$, interquartile range = 4. The differences are very noticeable between the two groups. Mothers educated
