Total Freedom Chris Matthew Sciabarra 2018-07-18 Building upon his previous books about Marx, Hayek, and Rand, Total Freedom completes what Lingua Franca has called Sciabarra's "epic scholarly quest" to reclaim dialectics, usually associated with the Marxian left, as a methodology that can revivify libertarian thought. Part One surveys the history of dialectics from the ancient Greeks through the Austrian school of economics. Part Two investigates in detail the work of Murray Rothbard as a leading modern libertarian, in whose thought Sciabarra finds both dialectical and nondialectical elements. Ultimately, Sciabarra aims for a dialectical-libertarian synthesis, highlighting the need (not sufficiently recognized in liberalism) to think of the "totality" of interconnections in a dynamic system as the way to ensure human freedom while avoiding "totalitarianism" (such as resulted from Marxism).

Philosophising Experiences and Vision of the Female Body, Mind, and Soul: Historical Context and Contemporary Theory Musingafi, Maxwell Constantine Chando 2021-04-23 Much of our understanding of the world, our societies, and ourselves rests on theories and knowledge generated predominantly by men of certain nationalities and economic classes. This male-dominated and culturally specific theorizing and knowledge have generally resulted in the exclusion of women and other groups from the process of formal theorizing and knowledge building. Feminism argues that the male-dominated knowledge represents a skewed perception of reality and is only partial knowledge. Feminism is a generalized, wide-ranging system of ideas about social life and human experience developed from a woman-centered perspective. It treats women as the central subjects in the investigative process and seeks to see the world from the distinctive vantage points of women in the social world. The best way to empower women and better the situation for women is to take women's daily experiences and their informal theorizing into account and, on this basis, adopt feminist approaches to building theory and knowledge. Philosophising Experiences and Vision of the

Female Body, Mind, and Soul: Historical Context and Contemporary Theory provides an overview and introduction to the study of feminist theory and practice in the social sciences. This book provides a starting point for further and more advanced study of the nexus of feminism, gender, and development and translates feminist theory and concepts into practice. The chapters investigate, in a historical context, mainstream and contemporary theories of feminism and gender studies. This book is ideal for post-graduate students of social science; researchers of development management, business management, public governance, and gender and development; activists; feminists; and practitioners, stakeholders, researchers, academicians, and students interested in feminist theory and knowledge building.

Descartes and Cartesianism Stephen Gaukroger 2017-01-19 This volume is a collection of original essays dealing with Cartesian themes and problems, especially as these arise in connection with Cartesian natural science and the theory of perception, agency, mentality, divinity, and the passions. It focuses in particular on Desmond Clarke's important contributions to these aspects of Descartes's writings. Stephen Gaukroger and Catherine Wilson split the volume into four distinct parts; Cartesian Science, Mind and Perception, Actions and Passions, and Cartesian Woman. The contributors are internationally known and respected scholars of 17th century philosophy writing on a number of their favourite Cartesian topics.

Women and Religious Writing in Early Modern England Erica Longfellow 2004-09-23 This study challenges critical assumptions about the role of religion in shaping women's experiences of authorship. Feminist critics have frequently been uncomfortable with the fact that conservative religious beliefs created opportunities for women to write with independent agency. The seventeenth-century Protestant women discussed in this book range across the religio-political and social spectrums and yet all display an affinity with modern feminist theologians. Rather than being victims of a patriarchal gender ideology, Lady Anne Southwell, Anna Trapnel and Lucy Hutchinson, among others, were both active negotiators of gender and active participants in wider theological debates. By placing women's religious writing in a broad theological and socio-political context, Erica Longfellow challenges traditional critical assumptions about the role of gender in shaping religion and politics and the role of women in defining gender and thus influencing religion and politics.

What is a Woman to Do? Kyriaki Hadjiafxendi 2011 This anthology contributes to a scholarly understanding of the aesthetics and economics of female artistic labour in the Victorian period. It maps out the evolution of the Woman Question in a number of areas, including the status and suitability of artistic professions for women, their engagement with new forms of work and their changing relationship to the public sphere. The wealth of material gathered here - from autobiographies, conduct manuals, diaries, periodical articles, prefaces and travelogues - traces the extensive debate on women's art, feminism and economics from the 1830s to the 1890s. Combining for the first time nineteenth-century criticism on literature and the visual arts, performance and craftsmanship, the selected material reveals the different ideological positions surrounding the

transition of women from idleness to serious occupation. The distinctive primary sources explore the impact of artistic labour upon perceptions of feminine sensibility and aesthetics, the conflicting views of women towards the pragmatics of their own creative labour as they encompassed vocations, trades and professions, and the complex relationship between paid labour and female fame and notoriety.

The Intelligent Woman's Guide to Socialism and Capitalism Bernard Shaw 1984 With great wit and forcefulness, Shaw here presents the conditions under which he thought the world could look forward to the future with hope. This book sets out most completely Shaw's indictment of capitalism as the source of both domestic injustice and international enmity, and his arguments for a socialist egalitarian society as the only society assured a healthy future.

The Reasonable Woman Wendy McElroy Have you, as a woman, ever felt frustrated while engaged in a discussion on some important topic? Do you feel constrained when attempting to express your ideas and views to others? Do you find yourself at a loss for words? Have you been labeled unreasonable by the men in your life? Have you been told you are too emotional or that women just tend to be that way? Well, help is on the way! Wendy McElroy has broken through the wall of sexual stereotyping to offer the perfect guide to help women recognize their mental power, learn to reason effectively, and use this resource to succeed in love, work, and life. Designed for all women who want to explode the label of being unreasonable, this volume outlines the tools needed for readers to realize their intellectual potential. McElroy's delightful and informative book will help you win arguments; rise above intimidation; and successfully express yourself in private or in public, even in the face of hostility. This valuable self-help and women's studies guide includes the psychological dimensions of reasoning, emotional barriers, how to break the fear of error, and arguing to win. Wendy McElroy (Collingwood, Ontario) has written on women's and related issues for the National Review, Penthouse, Liberty, and Reason.

Ending Discrimination Against People with Mental and Substance Use Disorders National Academies of Sciences, Engineering, and Medicine 2016-09-03 Estimates indicate that as many as 1 in 4 Americans will experience a mental health problem or will misuse alcohol or drugs in their lifetimes. These disorders are among the most highly stigmatized health conditions in the United States, and they remain barriers to full participation in society in areas as basic as education, housing, and employment. Improving the lives of people with mental health and substance abuse disorders has been a priority in the United States for more than 50 years. The Community Mental Health Act of 1963 is considered a major turning point in America's efforts to improve behavioral healthcare. It ushered in an era of optimism and hope and laid the groundwork for the consumer movement and new models of recovery. The consumer movement gave voice to people with mental and substance use disorders and brought their perspectives and experience into national discussions about mental health. However over the same 50-year period, positive change in American public attitudes and beliefs about mental and substance use disorders has lagged behind these advances. Stigma is a complex social phenomenon based on a relationship between an attribute and a stereotype that assigns undesirable labels, qualities, and behaviors to a person with that attribute. Labeled individuals are then socially devalued, which leads to inequality and discrimination. This report contributes to national efforts to understand and change attitudes, beliefs and behaviors that can lead to stigma and discrimination. Changing stigma in a lasting way will require coordinated efforts, which are based on the best possible evidence, supported at the national level with multiyear funding, and planned and implemented by an effective coalition of representative stakeholders. Ending Discrimination Against People with Mental and Substance Use Disorders: The Evidence for Stigma Change explores stigma and discrimination faced by individuals with mental or substance use disorders and recommends effective strategies for reducing stigma and encouraging people to seek treatment and other supportive services. It offers a set of conclusions and recommendations about successful stigma change strategies and the research needed to inform and evaluate these efforts in the United States.

Queen Silver Wendy McElroy 2000 This riveting, well-researched book brings to light the dramatic life of a passionate free-speech champion. . . .

I couldn't put down this remarkable book. - Nadine Strossen, ACLU President
When she was just eight-years-old, a little girl with the odd name of Queen Silver stunned citizens and scholars alike in pre-1920s Los Angeles by hosting six remarkable public lectures on Darwin and Einstein, sponsored by the London Society of Science. A child prodigy and the daughter of famed socialist activist Grace Vern Silver, founder of the Industrial Workers of the World (IWW), Queen Silver was the subject of Cecil B. De Mille's film *The Godless Girl*. She matured to become an international feminist, atheist, and socialist, living a remarkable and inspiring life, of which few feminists today are aware. *Queen Silver: The Godless Girl* is a fiery and profound biography of one of America's most amazing feminist thinkers, a woman who remained an active advocate of intellectual independence to the moment of her death in 1998 at the age of 86. Prolific feminist writer Wendy McElroy sympathetically chronicles the life of Queen Silver from personal interviews with her friends, published reports, letters, and a vast library of the family's personal papers. What emerges is a life like none other. A well-known thinker by the time she was 11-years-old, giving speeches titled *Pioneers of Freethought*, *The Rights of Children*, and *Science and the Workers*, Queen challenged three-time presidential candidate William Jennings Bryan to a debate on evolution (he declined); organized an atheist group at her high school; and left home at 15 to marry a doctor three-times her age, which later became the source of a highly publicized divorce. As a teenager, Queen once served as a defense lawyer for her mother and won. She founded the scholarly and well-reviewed *Queen Silver Magazine*, and overcame personal tragedy and political persecution during World War I's red scare. Queen worked as an extra in movies directed by D.W. Griffith, attended violent and controversial meetings of the IWW, and went into hiding at the advent of McCarthyism. In her later years, Queen received many freethought awards, remained active in the American Civil Liberties Union, and campaigned hard for public libraries. McElroy tells a complete story by profiling Queen's mother, lecturer and feminist writer Grace Vern Silver, whose struggles for justice in the IWW found her running for Congress, and whose personal education motivated her to inspire the genius in her daughter. Wendy McElroy (Collingwood, Ontario) has written on women's and related issues for the *National Review*, *Penthouse*, *Liberty*, and *Reason*.

Women Teachers and Feminist Politics, 1900-39 Alison Oram 1996 Women teachers were key players in twentieth century feminism. They fought for women's suffrage before the First World War and continued their vigorous campaigns for equal pay, equal promotion opportunities and abolition of the marriage bar into the less promising political environment of the 1920s and 1930s. This book is the first to offer a detailed assessment of why women teachers were so politically active, and makes an important contribution to the literature on women's politicisation. Drawing on interviews with women teachers (in state elementary and secondary schools) as well as the records of teachers' associations and central and local government, it explores the tensions in the relationship between their position at the workplace and their family lives and unravels the connections and dissonances between how they saw themselves as both women and professional teachers.

The Mothers of England Mrs. Ellis (Sarah) 1844

The Woman Patient Carol Nadelson 2013-11-11 In Volumes 2 and 3, we have chosen a focus that places in context aspects of mental health and the complex psychosocial factors that affect our perceptions of how health and illness are defined and experienced. We are aware that some may take exceptions to the topics chosen or to the way in which some authors have developed their ideas and presented their information. While we cannot expect to agree with each other all of the time, we can provide a framework and a perspective from which ideas can take form and evolve. The first section of Volume 2 provides an overview of some of the theoretical issues involved in understanding the psychology of women. These issues include changes in psychoanalytic views, particularly in relation to femininity and feminine development. The particular developmental experiences of black women are also clearly delineated. The second section deals with specific points in the life cycle that raise

unique issues for women, especially as they pertain to the many roles of women in contemporary society and the impact that these roles have on their careers and on their families. The impact of having a working mother on the early interaction with children, the concerns of midlife, especially marital interactions, and the ambiguities of aging are discussed. We intend to provide information and to raise questions that we hope will be part of an ongoing dialogue, as well as a stimulus to more intensive study and understanding.

Women's Worlds Ros Ballaster 1991 The story of the civil rights movement is well-known, popularized by both the media and the academy. Yet the version of the story recounted time and again by both history books and PBS documentaries is a simplified one, reduced to an inspirational but ultimately facile narrative framed around Dr. King, the Kennedys, and the redemptive days of Montgomery and Memphis, in which black individuals become the rescued survivors. This story renders the mass of black people invisible, refusing to take seriously everyday people whose years of persistent struggle often made the big events possible. Time Longer than Rope unearths the ordinary roots of extraordinary change, demonstrating the depth and breadth of black oppositional spirit and activity that preceded the civil rights movement. The diversity of activism covered by this collection extends from tenant farmers' labor reform campaign in the 1919 Elaine, Arkansas massacre to Harry T. Moore's leadership of a movement that registered 100,000 black Floridians years before Montgomery, and from women's participation in the Garvey movement to the changing meaning of the Lincoln Memorial. Concentrating on activist efforts in the South, key themes emerge, including the under appreciated importance of historical memory and community building, the divisive impact of class and sexism, and the shifting interplay between individual initiative and structural constraints. More than simply illuminating a hitherto marginalized fragment of American history, Time Longer than Rope provides a crucial pre-history of the modern civil rights movement. In the process, it alters our entire understanding of African American activism and the very meaning of "civil rights."
